

Kids Instyle Sydney – shoes by Old Soles

We had a little chat to Vicki Lever from Old Soles shoes about her collections for babies and toddlers up to twenty-four months. We loved the baby sneaker-style shoes and the pretty Mary-Janes for girls featuring cutouts. The beauty of Old Soles (<http://oldssoles.com.au>) shoes is that they come higher up the ankle and are securely fastened without restricting the movement of the foot, and ensuring they don't fall off easily.

The pre-walkers have leather soles while the First Steps range have a non-slip rubber surface to help prevent accidents in those new to the walking game!

It was lovely to see patent-tipped shoes in colours other than pink, as well as that lovely favourite colour of so many little girls. I had a particular thing for the blue metallic beauties at the far left. Nice to have met you Vicki and we love [Old Soles](http://oldsoles.com.au/) (<http://oldsoles.com.au/>)!

We have more editorial coming to you from Babyology at Kids Instyle Sydney 2011.
